### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 87-90 have been canceled.

These claims were removed from consideration after the election of Group I responsive to the restriction requirement sent 2/11/03. A traversal was indeed made, as Applicant has asserted, respective to Groups I and II. Applicant was absolutely correct in asserting that Group II comprised all of the limitations of Group I, and thus Group II claims (71-86) have been allowed in this application, as requested by Applicant. However, Group III is a completely different invention whose separation from Groups I and II was not traversed. Thus, Group III claims have been canceled and, as Applicant has suggested, the right to pursue these claims in a divisional application has not been affected by the prosecution of the instant application.
